

infoshare™

Finance Module

**Manage Your Budgets / Funds & Expenditures
Easier and More Efficiently**

The familiar InfoShare User Interface provides a simple way for your agency to better manage and allocate their budgets with policy objectives and mastering the budgeting process in mind. InfoShare connects your financial means and operational needs with seamless integration within your InfoShare applications.

The Financial Management Module is designed to manage your grant coordination and reporting, budget analysis and tracking as well as easy to understand financial charts.

The InfoShare™ Finance Module

Better manage and allocate budgets and mastering the budgeting process

Features

Annual Budget Preparation

- > Allows the entire agency to participate in the preparation process; personnel can submit, review, and approve budget items
- > Create budgets and plans from top-down, bottom-up, mixed or activity-based approach planning methodologies
- > Calculates account budgets based upon prior year actuals or budgets

Annual Budget Management

- > Track and manage budget requests, expenditures, and transfers with efficiency
- > Provide your executives with the details of every financial transaction

Purchase Orders & Payments

- > Save valuable time by automating the long and boring process of placing an order
- > Bring upcoming expenses to light in advance to help with planning, budgeting and communicating between departments
- > Compare invoices against purchasing records right at your fingertips
- > Provides a single, efficient platform for the approval process within your organization

Vendor Management

- > Easily organize approved vendors, along with the required W-9 documentation
- > Prioritize working with vendors that adhere to your organization's compliance policy
- > Streamline the labor-intensive invoice process by supporting it with a real-time workflow

Grant Funds Management

- > Leave the complex account structure behind; activity-based tracking makes separating and reporting for various projects and programs painless

Finance Charts

- > Manage your agency's asset forfeiture program on strategic cases and investigations that result in forfeited funds

Forfeiture Module Interface

- (For customers utilizing InfoShare's Forfeiture module)
- > Seamless integration with InfoShare's Forfeiture Module

Budget Reporting

- > Fast, flexible reporting allows you to access critical information on the spot
- > Effortlessly organize reports by department, category, or account #
- > Compare the actual result against the budget and action taken with ease

Forfeited Funds Management

- > Provides the deep analytics and advanced collaboration tools your agency needs
- > Increase efficiency and reduce errors via period and process dashboards
