Billing Module

A Total Solution For Invoicing and Tracking Payments

All off-duty jobs are handled!

Construction, community events, traffic management, utility work, sports and entertainment venues

Professional Billing with Invoices, Reports, Assignment Notification
Built-In Workflow
Seamlessly Integrates with the InfoShare™ Personnel Module

The InfoShare™ Billing Module

Streamlines Customer Billing, Account Tracking and Agency Assignments

Features

01

Complete Customer Management! Creates customer accounts with account numbers, customer information and rates- increases accuracy and efficiency and avoids repetitive work with recurring jobs

02

Built-in workflow sends assignments, bills, approvals and payment tracking information to the proper employee's in-box, optimizing communication and productivity

03

Each job gets assigned a unique number

04

Tracks all job details- staff assignments, car assignments, invoice and payment dates, overdue indicators, etc.

05

Maintains a history of customer jobs

06

Ability to set rates by job type or vendor class

07

Seamlessly integrates with the InfoShare™ Personnel module for payroll management and staff assignments

08

Ability to make assignments based on seniority, location, rank or other criteria

09

Creates invoices and accompanying letters to customer

10

Generates reports for payments, overtime, customer account status, etc. These can be easily configured to your agency requirements and are template-driven

This total solution for agency billing is configured to fit your business rules!
