

MAJOR INCIDENT MANAGEMENT

INTER-AGENCY COLLABORATION FOR COMPLEX INVESTIGATIONS

Facilitate major incident investigations involving multiple operations, jurisdictions, and/or leads

Due to the nature of major incident operations, the command staff has to quickly bring together a body of law enforcement officers from a variety of agencies to manage investigative leads and tasks. There is no time to hesitate, no time for training, and even less time for miscommunication. This module is designed for quick response in these types of emergencies.

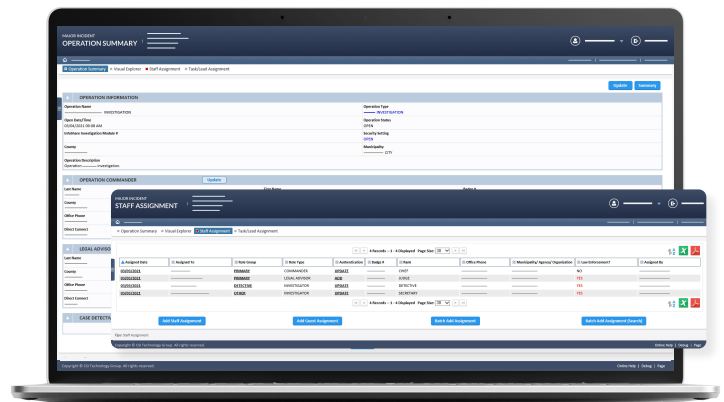

FEATURES

COMPLEX INVESTIGATIONS

Complete personnel management and tracking tool to facilitate an organized approach to major incident investigations in one uniform application. Establish a clear chain of command and work collaboratively with agencies (within or across jurisdictions) towards common objectives.

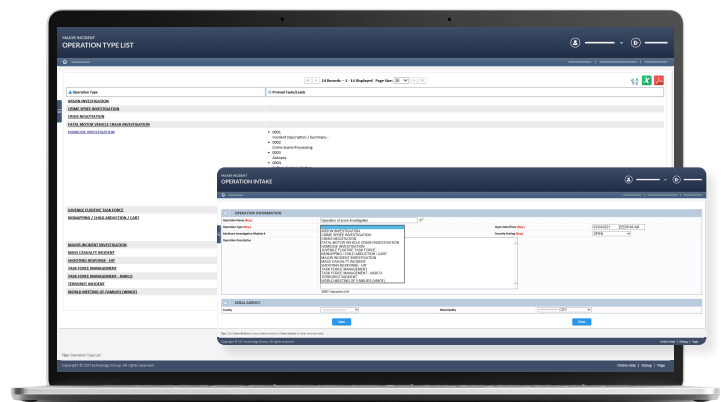

- Multi-jurisdiction staff assignment
- Investigation module integration
- Intelligence module integration
- Incident & event timeline

PRELOADED OPERATION TYPES

Command staff can simply select specific operation types for preloaded leads and workflow. Allow system administrators to change support files to add, edit, or remove preloaded information.

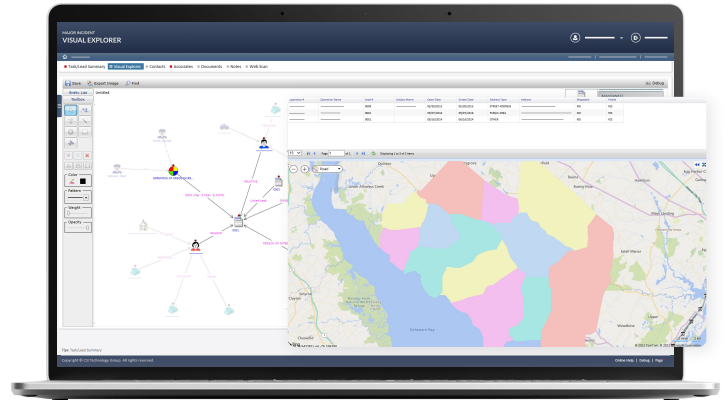

- Terrorist incident
- Mass casualty incident
- Major incident investigations
- Crime spree investigation
- Task force management

LEAD MANAGEMENT

Enhance multiple lead investigations across agencies and jurisdictions with lead tracking, assignment, prioritization, and linking. Link analysis visually maps the relationships between leads.

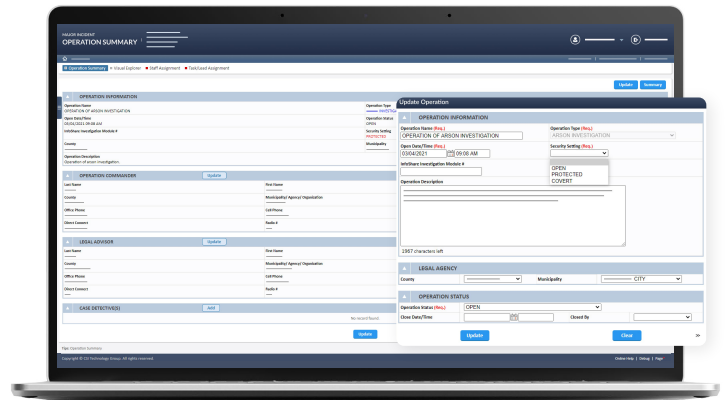

- Color-coded lead assignment
- Crime mapping
- Link analysis
- Canned statistical reports
- Ad hoc reporting

SECURITY

Law enforcement, prosecutor offices, and other agencies can share the same operation whilst keeping sensitive data secure and separated. Flexible workgroup access permissions ensure data privacy.

- Supervisor
- Legal Advisor
- Investigator
- Read-only access
- Entry-only access
