

PERSONNEL & SCHEDULING

COMPREHENSIVE PAPERLESS SOLUTION TO
STREAMLINE HR FUNCTIONS

Support all aspects of personnel management—training, leave, inventory, scheduling, and more

InfoShare™ Personnel & Scheduling module is a fully configurable and paperless application for HR administrators to manage all HR functions such as leave, overtime/compensatory time, training requests, firearms qualifications, and policy and procedures documents. Extensive searching and analytical reporting for both attendance and payroll purposes provide an easy way to manage any contractual rules agencies may have.

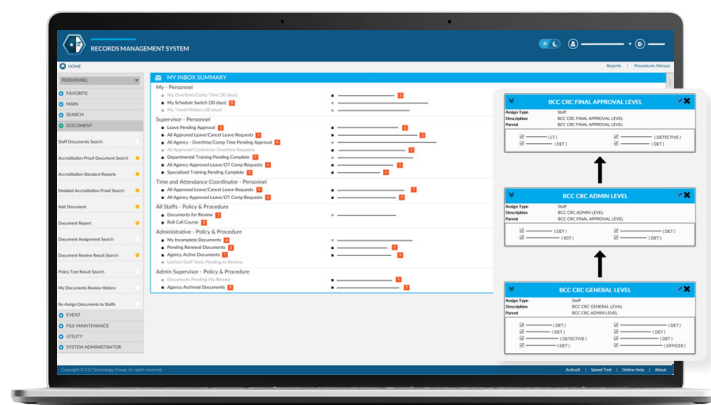

FEATURES

MULTI-LEVEL APPROVAL WORKFLOW

Fully customizable approval process for multiple groups (divisions, units, squads) with multi-level approval based upon each agency's requirements for leave, overtime, and training submissions.

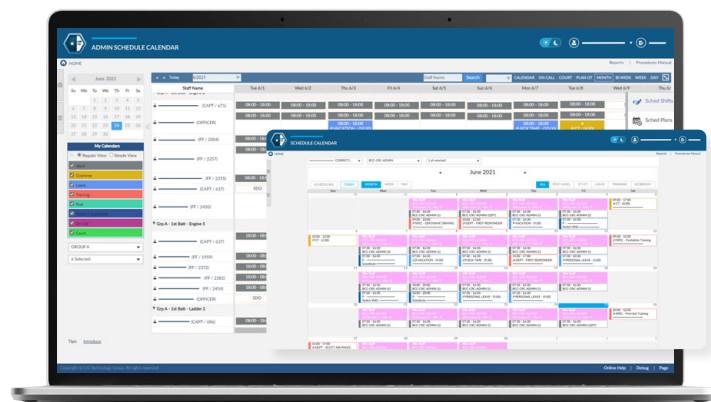

- Paperless review and approval workflow
- Inbox approval tracking with mail notifications
- OT/CT, leave, and schedule switch/substitute requests
- Leave and overtime search and management reporting

STAFF SCHEDULING

Easy access to calendar views from any device connected to the internet such as a desktop, tablet, or smartphone. Staff can be scheduled up to two years in advance and receive notifications of any schedule changes via email or text.

- Schedule template generator
- Time management and scheduling calendar views
- Calendar entries with color-coded status indicators
- Minimum staffing permissions and indicators
- Color-coded daily line up roster
- Mobile application for scheduling, overtime, and notifications

EXTENSIVE SEARCH CAPABILITIES & REPORTING

Comprehensive search options allow users to quickly retrieve the necessary information on all aspects of personnel management. HR management reporting is easily accomplished with analytical reports such as leave, overtime, and comp time.

- Analytical reports for staffing management
- Search by staff overtime source
- Search by staff leave source
- Yearly budgeting assistance

The screenshot displays two overlapping reports from a personnel management system. The background report is titled 'LEAVE SUMMARY' and shows a detailed breakdown of leave for the year 2023, categorized by department (CORRECTIONS) and various leave types (COMP TIME, PERSONAL DAY, SICK LEAVE, VACATION DAY, FLETC). The foreground report is titled 'OVERTIME PAYROLL REPORT' for the period 06/01/23 to 06/30/23, showing overtime hours and pay for various staff members.

TRAINING SUBMODULE

Track all mandatory training and alerts for training deficiencies. Training administrators can view all staff training records and initiatives for additional and specialized training. Furthermore, the system alerts staff when training rescheduling is required.

- Customizable approval workflow
- Staff training records tracking
- Staff and admin calendar integration
- Department and specialized training tracking
- Alert management for recertification training
- Mobile application for training schedule tracking

The screenshot shows the 'DEPARTMENTAL TRAINING RECENT DATE EXPIRED' interface. It features a table listing training records with columns for ID, NAME, START DATE, END DATE, and EXPIRATION DATE. A sidebar on the right provides filters and search options. Below the table, there are sections for 'SELECTED RECORDS' and 'DETAILS' for a specific training record.

INVENTORY MANAGEMENT

Customizable and support file-driven inventory management system to track status, assignment, history, expiration date, and other information. Fully integrated with Firearms Qualification Management reporting.

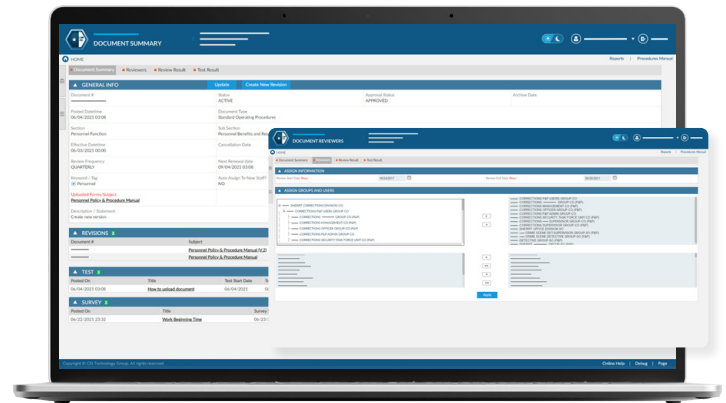

- Robust agency inventory tracking
- Inventory assignment by location, staff, or team
- Firearms Qualification Reporting integration
- Staff bulk inventory assignment
- Equipment expiration alerts

The screenshot displays two overlapping reports. The background report is titled 'STAFF FIREARMS QUALIFICATIONS SUMMARY' and shows a list of staff members with their respective firearms qualifications. The foreground report is titled 'INVENTORY LIST' and shows a detailed view of inventory items, including their location, status, and expiration date.

POLICY AND PROCEDURE MODULE (INFO P&P)

Promote compliance and understanding of organizational policies. Agencies can author, approve, and disseminate electronic policy and procedure documents across an organization. Staff can read and sign off on documents to indicate agreement.

- Agency-specific policy and procedure template generation
- Document version control, testing, and surveys
- Integrated accreditation document management process
- Customizable review and approval workflow
- Management alerts for reviewing past due documents
- Full-text search and robust permission settings
